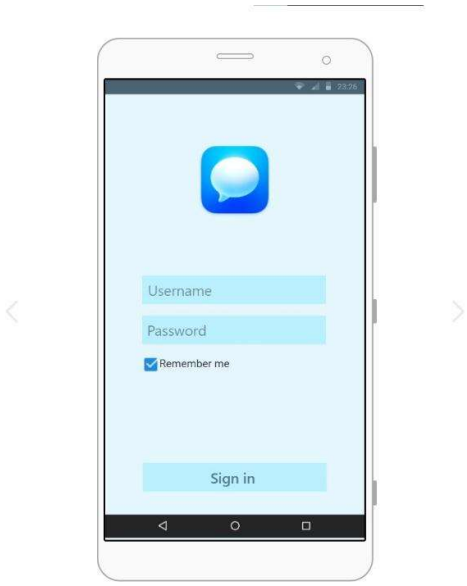
EXPERIMENT 4

ROLL NO: 240701801 NAME: Dharshan D

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

Screen 1:

<u>Sign In page for the destination app</u>



Familiar Icons:

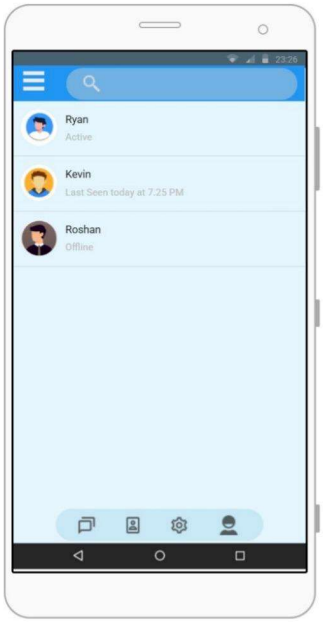
1. Sign In Button:
   A clearly labeled action button.
   Standard primary action element.

Possibly Unfamiliar or Missing Icons:

1. Missing Back Button:
   Users may not know how to navigate to the previous page.
2. Missing Sign Up Option:
   New users may not know how to create an account.
3. Missing Forgot Password Link:
   Users who forget their password may not find recovery options.
4. Missing Page Title (Login):
   Lack of a clear heading may confuse users about the current screen.

Screen 2:

Home page:



Familiar Icons:

1. Hamburger Menu – Top Left:
   Common icon used to open a navigation drawer or sidebar.

2. Search Icon – Top Bar:
   Widely recognized symbol for searching contacts or conversations.

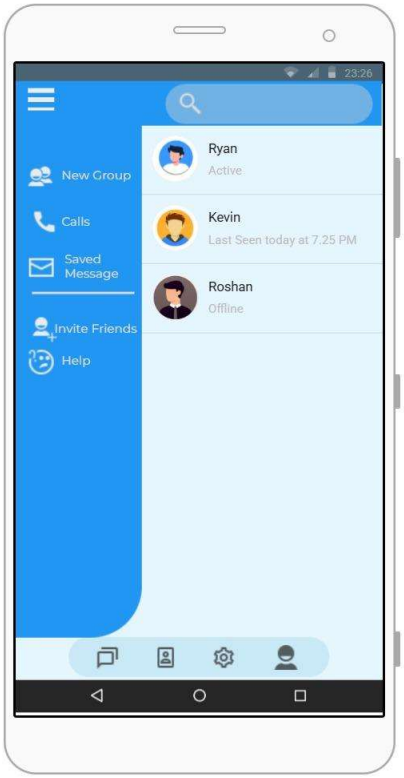
3. Profile Avatars – Next to Names:
   Circular user images commonly used in chat applications.

4. Status Text (Active / Last Seen / Offline):
   Standard way to show user availability in messaging apps.

5. Bottom Navigation Icons:
   Common layout for switching between main sections like chats, contacts, settings, and profile.

Screen3:

Home Page with Navigation Drawer



Familiar Icons:

1. Hamburger Menu – Top Left:
   Standard icon used to open the side navigation drawer.

2. Search Icon – Top Bar:
   Commonly used to search chats or contacts.

3. Navigation Drawer (Sidebar Menu):
   Widely used mobile pattern for accessing additional options.

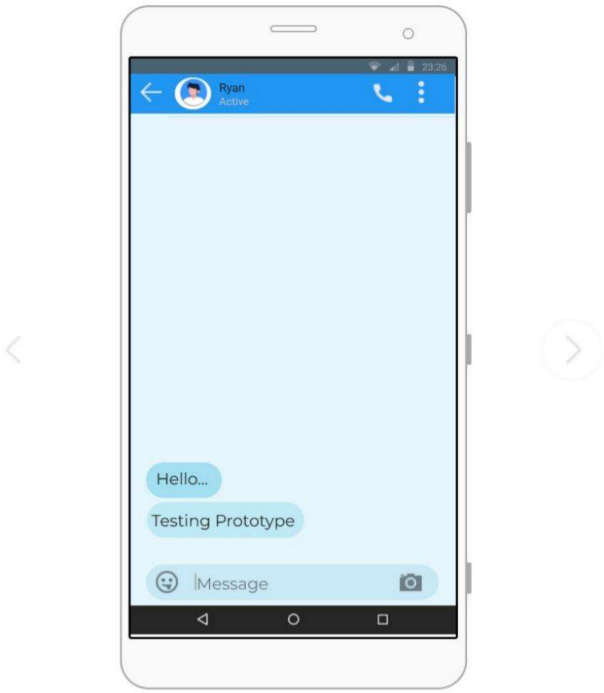
4. Call Icon – Next to “Calls”:
   Recognizable symbol for call-related features.

5. Envelope Icon – Next to “Saved Message”:
   Common symbol for messages.

6. Help Icon – Next to “Help”:
   Standard representation for support or assistance.

Screen4:

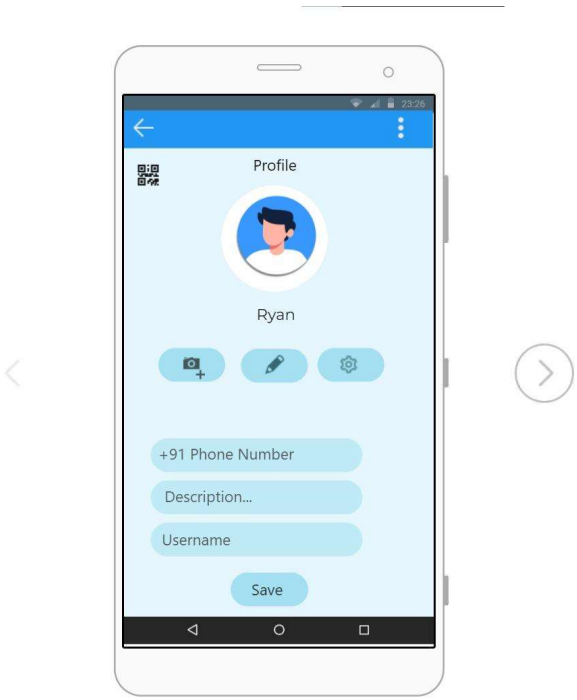
Chat Screen – Familiar UI Elements



1. Back Arrow (Top Left)
    - Commonly used across messaging apps for returning to the previous screen.
    - Helps users quickly navigate back without confusion.
2. Call Icon (Top Right)
    - Standard icon indicating the ability to make a voice call.
    - Instantly recognizable due to its frequent use in communication apps.
3. Three-Dot Menu
    - A familiar symbol for additional actions or settings.
    - Users expect this to open a small menu for chat-specific options.
4. Message Input Field (Bottom**)**
    - Standard text area used for typing and sending messages.
    - Consistently placed at the bottom in almost all chat applications.
5. Emoji and Camera Icons
    - Commonly found within chat input bars for quick emoji access and media sharing.
    - Their placement makes interaction intuitive and predictable.

Screen 5:

Profile Screen – Familiar UI Elements



1. Back Arrow (Top Left)
    - A widely recognized navigation tool to return to the previous page.
    - Maintains consistency across app screens.
2. Profile Picture (Center)
    - Circular avatar is a standard representation of user identity.
    - Positioned centrally to highlight user information.
3. Camera Icon for Photo Update
    - A known symbol for changing or uploading profile photos.
    - Users easily understand its purpose without explanation.
4. Edit (Pencil) Icon
    - Universally used to indicate editing of information.
    - Makes profile customization simple and clear.
5. Settings (Gear) Icon
    - Common icon for managing account or profile settings.
    - Helps users locate configuration options quickly.
